## EXPERIENCE

**WALK HORIZONS, Chennai**

**FRONTEND WEB DEVELOPMENT INTER( June 27 to july 27 )**

As a Frontend Development Intern at WalkHorizons in Chennai, I immersed myself in a dynamic learning environment, collaborating with a team to tackle various frontend development projects. Throughout my internship, I leverage My skills in HTML, CSS, and JavaScript contribute to the creation and enhancement of web applications.

## PROJECTS

### Portfolio :

In addition to my professional experiences, I have developed a comprehensive portfolio website to showcase my projects and skills in frontend development. Utilizing HTML, CSS, and JavaScript, I created a user-friendly interface that highlights my proficiency in modern web development techniques and design principles. [link](#)

### Quiz app (react) :

I have recently concluded a significant project in which I developed a quiz application using React.js, showcasing my proficiency in modern frontend development. This endeavor required adept implementation of routing functionality to seamlessly navigate between diverse quiz sections.

### E-commerce website:

Developed a tailored e-commerce application for restaurants using HTML, CSS, and JavaScript. Designed a user-friendly interface enabling seamless ordering . Implemented responsive layouts for cross-device compatibility and integrated dynamic features including menu browsing and cart management.

### Billing System:

Developed a simple Billing system using the java programming and which enclose the concept of structure, function, inheritances . This was simple to use and effective.

### User Verification :

Built secure authentication system with Express.js and MongoDB, including login/signup functionality. Developed RESTful APIs for authentication,. Efficiently stored user data in MongoDB. Designed user-friendly interfaces using HTML, CSS, and JavaScript. Enhanced proficiency in Express.js, MongoDB, and web application security.
